

# Mana Esplanade clearway hours

From Monday 6 April, SH1 Mana Esplanade clearway times are changing.

Due to increased traffic volumes and changes in travel times, new clearway times are planned to better reflect the current situation. The new times will help ease traffic congestion along this busy stretch of highway while improving safety.

These changes reflect the feedback received through the consultation phase with local community and businesses, Porirua City Council, local iwi and various other stakeholder groups.

The schedule below outlines the new clearway times. These changes are in accordance with the Environment Court Order which states clearway times cannot exceed 3.5 hours in each direction on any one day.

Heavy commercial vehicles must use the centre lane between Paremata Bridge and Steyne Avenue, in both directions at all times, unless turning. We encourage drivers to show patience and courtesy and assist their transition to the centre lane. All other vehicles are encouraged to use the centre lane at all times along Mana Esplanade, unless turning.

Please keep a look out for new road signage - electronic and roadside - for further guidance.

The new clearway times will be reviewed following the opening of Transmission Gully.
